DIRECTOR'S NOTE

I have always been fascinated and very enamored with the Alice books. I never tire of trying to make sense of these colorful and exciting episodes. I continue to try to find new meaning and have been planning a script for decades. This year, after the great success of our original Cinderella Rebooted script that was produced by SDCAP and our Mexican branch- Rosarito Dance Theatre, in San Diego, Rosarito, and Tijuana, I felt the time was right and the group of talented youth was perfect. It has been a huge learning process both as a Director, Instructor, and a parent. Although the times have changed drastically since 1865, when Alice was written by Lewis Carroll, the right of passage for young people questioning the world around them is true and the same. We are to be reminded that it is healthy to see the world in a way that does in fact question ourselves, and others motivations. We see that sometimes we are surprised and enlightened by the answers to situations, and the impact of our decisions and reactions. We hope that you question, appreciate, and enjoy this "Rebooted" version of this classic favorite. Thank you to everyone who has believed in and supported this production and the magic of the performing arts!
